

THE AFTER MARKET SHEET

VOL. 58A, No.7A WWW.SVSM.ORG AUGUST 2024

A Publication of the SVSM Chapter of International Plastic Modeler's Society, USA

AN AUGUST FIRST LOOK AT "ATLANTIS" -

Editor's MisBehavings – this month's editor, Mick Burton

(shameless plug: www.mickbmodeler.com)

“ AN EVER MORE EXPANDING NEW YEAR TO CHEER ON ”

Having last time noted that SVSM had underway a plan to follow up our SV Classic's return, it's confirmed and the final details are being firmed up with exciting updates. Since then also now have official notice that SILVERCON 2025 has a date, NNL West and Yuba City are down for opening New Year s events. Lots still coming between in '24 - *fini mickb*

=====

“ NCAR – Real or Not ”

September SVSM Club Contest by Editor

Real Easy rules: ANY Racing Aircraft in history as subject is eligible, not just Reno NCAR, for “REAL”

NOT Easy rules: ANY “Fantastic” (as in re: fantasy) realization you come up with as subject, is eligible for “NOT”

September 2024 would have been the 60th anniversary of the legendary National Championship Air Races being run at Reno-Stead Airport, had real life not intervened in 2023. Instead there won't be any 2024 races run, but we can still honor and celebrate this “ ultimate motorsport ” here in our own way, also have some added fun doing it.

Toward this end, Now Celebrating Air Racers is the intended meaning of NCAR when decoded for the contest

- 27) **ENDPIECE REMINDER NOVEMBER** is SVSM's CLUB CONTEST “ N is for ... ”

The Search For Atlantis !

As It Turned Out, August Club Contest Managed To Be An All Monogram In Evidence

Photos/Text: Mick Burton

EDITOR's CLUB CONTEST sponsorship. Very simple rules: Choose one or more kits reproduced under the Atlantis Models label, build it to your satisfaction (ranges from out of the box to massive overhaul) show up to have chance to win an award at meeting !

Formed in 2009, Atlantis Model Company is an interesting outfit, and they have done much more than re-issue "kits of old" from a variety of familiar names of the past. Some of their earliest offerings were original designs, like the TR-3E Triangular UFO and E.V.E. Saucer. But these days they are best known for having restored to

Eugenie got this kit as a tryout before she completes her Accurate Miniatures Grand Sport Corvette. While these kits are separated by many decades with a huge difference in parts count, Midget wasn't without its challenges.

iver Included
removable Hood
Offenhauser Engine
Updated Waterslide Decals
Classic Model Kit made from
the Original Molds

MIDGET RACER
1:20 SCALE / 1 PLASTIC KIT / 1 KIT EN PLASTIQUE / 1 KIT PLÁSTICO

Eugenie said having to work the flesh tones made her appreciate all the more the head gear on driver, and she now knows “economies of early kits” well. I.e; the seat being absent, and “hollowed arms” of the driver who was the “filler”. Truly in end, Eugenie did this kit much justice, and her Corvette will be the better for it.

Having a polar opposite of an experience with a Monogram kit which was first out in 1968 and last seen in 1973, **Greg Plummer**

This is the Boeing 2707-300 SST, here rendered in 1/400th scale.

Greg said this was an easy choice for gaining entry into the A is for Atlantis event, as there is only 17 parts to the kit in toto, and the fit is actually pretty decent. Spray can painting par excellence factored to make the grade

He chose to pose his SuperSonic Transport in the “SubSonic” configuration, with wings swept forward, either way you compress it, still adds up “SST”. The decals are a nice bonus in Atlantis issue, albeit hypothetical.

Bob Meyers took up break from much of what he usually builds, tackling the 1926 AC Mack Bulldog truck so meeting club contest's challenge head on and whole hog.

It's originally a 1973 /74 Monogram kit in 1/24th scale, and nice

Bob encountered some adversity in the process of painting this machine, which he originally forecast he would do “ off the dealership floor” clean and shiny. He of course turned that from adversity to opportunity, Mastering the paint issues to render a splendid hard working vehicle befitting its reputation, using all his well honed skills in wear/tear, weathering. Bob said the nose is a poor fit if left “working” so he chose to pose it in a natural way. Next up was finding the proper “fill” for that big open staked bed, and Bob acquired a set of beer barrels after market, which began what you see here. The anonymous boxes/crates came from his voluminous armor kit

spare bits box, and the tarped cargo is a clever re use of some 1/16 armor kit material. Once it’s covered, no one would know the difference ! I happened to get preview look at this model week before and there, Bob had said while he was pretty happy with the result, still some bit was missing in his estimate. He had a plan in mind...

Well, as you can see here, Bob says now you can “ call it done, man, it was the chains!” . Nice, and works, too.

Now say hello to the “*Mojave Kid*”, which began life as a 1955 issue Douglas B-26B Invader by Monogram

Mike Meek took on the challenge of getting and finishing this 1/67th scale classic in just two weeks, converting it to a B-26K Counter Invader that he had personal experience with at the 1979 Mojave Air Races Unlimiteds.

Mike judiciously removed all the rivets and molded in markings, also the remote control turrets, nose and wing guns, managed the difficult feat of making model “gear up” (not an option in kit), chose to go with the desktop model painted canopies style (the kit features chest up pilots on pgs...). He then made new decals by hand, add set of proper wingtip tanks, and mount it on the separate stand Atlantis offers on their site. Quite a nice rebuild !

No, you're not seeing things, this really is the venerable Monogram PBY-5A Catalina in popular 1/104th scale

Chris Owczarek really enjoys the Consolidated flying boat, he made clear in enjoyably enthused model talk on this build of his.

He thought this was a perfect chance to try out some new for him techniques, such as using the Acrylic Floor Finish trick (aka “Future” polish) to get those canopy glass glistening (Atlantis did improve the 1955/1973 kit including the glass, but Chris really scored using the Acrylic here)

Chris did a nice job of subtle weathering, even a set of overwing exhaust stains using makeup kit and brush. Pleased to have done for the Atlantis event, now feels ready to take on a larger scale newer kit of this fine plane.

Now, let's see who won the prizes, hey

"A is for ATLANTIS " AUGUST SVSM Club Contest

FIRST PLACE – MACK BULLDOG Work Truck in 1/24th scale

BOB MEYERS

“A is for ATLANTIS ” AUGUST SVSM Club Contest

SECOND PLACE Tie in “Rhapsody In Blue Class”– PBX-5A in 1/104th scale

THEN OPENING 2025
THIS IS IT – THE 40th and LAST SHOW

A promotional poster for the NNL West 2025 40th anniversary show. The background features a sunset sky with orange and yellow clouds. In the foreground, a dark blue classic hot rod is shown from a side profile, driving on a road. The text 'NNL West' is in large, bold, yellow letters at the top. Below it, '2025' is written in a stylized, metallic blue font. To the left, '40 Years' is written in large, bold, yellow letters. To the right of the car, there is a list of bullet points in yellow text: '• FINAL NNL AFTER 40 YEARS!', '• THEMES: HOT RODS & LONG ROOFS', and '• PAST WINNERS HISTORY TABLE'. At the bottom, the website 'www.nnlwest.org' is written in blue, followed by the event details: 'January 4 • Santa Clara, CA Convention Center' and '9am-4pm • Model Car Display & Swap Meet • Door Prizes • Admission \$20'.

November SVSM Club Contest by Editor “ N is for ... ”

Another Fun With Alphabet with of course, another twist. Since November is traditionally last meeting calendar where Models/Model Talk are main agenda, often have some notoriously odd or offbeat theme Club Contest. E.g.; Turkeys, TOWS, Tailfins and Twins, Tanksgiving, stuff like that. This year, the Editor is sponsoring this mixing of myriad model concepts with Notable letter in synchronicity with month, it's vowel driven in a way but otherwise it just his usual madness. See below:

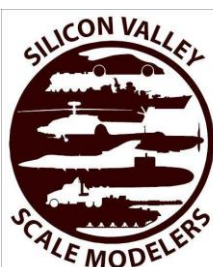

Right Now, this is Qualifying Model Entrant Node Mode:

- 1 A = N is for Naval or NASCAR or Natter
- 2 E = N is for Neutrals or Next Generation or NENE (*the jet engine, its immediate derivatives. For this, merely look it up on Wikipedia for one source, learn of the aircraft that had this engine or its equivalent, some good subjects*)
- 3 I = N is for Nippon (anything Japanese) Pretty basic, think on it
- 4 O = N is for Northrop or North American or Nord (the seed that started this)
- 5 U = N is for Nuclear (powered, or armed, or directly related to)

PLEASE SHARE THE JOY OF OUR HOBBY AND FRIENDS
Because it seems sometimes more than a few forget this :

THE ONE TRUE RULE OF MODELLING (if ever there is).
